

Cyberdeck Cellular & Media — Further Reading

Verified external resources, organized by lesson. All links live at time of writing.

Lesson 1 — Modems & AT commands

READ **ModemManager documentation (Freedesktop.org)**

<https://www.freedesktop.org/software/ModemManager/>

Lesson 2 — APN & carrier

READ **Raspberry Pi Documentation — Configuration (general reference used alongside SIM7600 AT docs)**

<https://www.raspberrypi.com/documentation/computers/configuration.html>

Lesson 3 — SMS & voice

READ **ModemManager documentation (Freedesktop.org)**

<https://www.freedesktop.org/software/ModemManager/>

Lesson 4 — Audio & power

READ **ALSA project documentation**

<https://www.alsa-project.org/wiki/Documentation>

Prerequisite project

CHAIN-K **Cyberdeck-Build — the power-budgeting skill this project's Lesson 4 directly reuses**
